WEEKLY UPDATE AND NOTIFICATION OF NEW CASES

10/21/2020

Dear Residents and Families/Representatives,

Please accept this letter as our update regarding the status of COVID-19 in our facility and notification that we received confirmation yesterday that two staff members tested positive for COVID-19. Also, since our last update on October 8th, 23 residents and 5 additional staff members tested positive for COVID-19, which brings our total number of positive cases since the onset of this virus to 25 residents and 18 staff members, 12 of whom have returned to work. The majority of the residents that tested positive are asymptomatic.

While we are disappointed in the spike in numbers recently, we are working hard to keep everyone in our community safe and we will continue to practice the enhanced safety precautions that are known to prevent the spread of COVID-19, such as only essential personnel are allowed inside the facility and we screen them for signs and symptoms of illness prior to entering. Our residents are continually monitored and staff is using PPE as recommended by the CDC. Staff is frequently reminded and encouraged to practice social distancing and to use hand sanitizer and frequently wash their hands when they are in the facility and out in the community. We ask them not to report to work if they have symptoms of illness.

Please continue to check our website for weekly updates as well as notification of new cases. As always, we will notify you if we receive confirmation of a new positive case in our facility and we will reach out to you individually if your loved one is displaying symptoms of COVID-19 or tests positive for COVID-19.

If you have any questions or concerns please contact us directly at 803-427-7140

Sincerely,

Yvonne Washburn

WEEKLY UPDATE

10/30/2020

Dear Residents and Families/Representatives,

Please accept this letter as our update regarding the status of COVID-19 in our facility and notification that we received confirmation this week that twenty-five residents and ten staff members tested positive for COVID-19. This brings our total number of positive cases since the onset of this virus to 50 residents and 30 staff members; 5 residents have recovered and 13 staff members have recovered and returned to work. The majority of the residents that tested positive are asymptomatic.

While we are disappointed in the spike in numbers recently, we are working hard to keep everyone in our community safe and we will continue to practice the enhanced safety precautions that are known to prevent the spread of COVID-19, such as only essential personnel are allowed inside the facility and we screen them for signs and symptoms of illness prior to entering.

Our residents are continually monitored and staff is using PPE as recommended by the CDC. Staff is frequently reminded and encouraged to practice social distancing and to use hand sanitizer and frequently wash their hands when they are in the facility and out in the community. We ask them not to report to work if they have symptoms of illness.

Please continue to check our website for weekly updates as well as notification of new cases. As always, we will notify you if we receive confirmation of a new positive case in our facility and we will reach out to you individually if your loved one is displaying symptoms of COVID-19 or tests positive for COVID-19.

If you have any questions or concerns please contact us directly at 803-427-7140

Sincerely,

WEEKLY UPDATE

10/06/2020

Dear Residents and Families/Representatives,

Please accept this letter as our weekly update regarding the status of COVID-19 in our facility. Since the onset of this virus, we have had 0 residents and 11 staff members test positive for COVID-19. Last week we received confirmation that three staff members tested positive for COVID-19. We have not had any new confirmed cases since October 1st.

As you might be aware, and as we have previously communicated, CMS has distributed guidance for nursing facilities to allow visitors. While we are so excited to for you to see your loved ones and to have you back at our facility, there are many factors that determine when a facility can open up for visitors, up to and including our county's COVID-19 positivity rate, residents' health status, or if there is a COVID outbreak in the facility. Please be assured we are working hard to create visitation plans that will allow you to visit your loved ones as soon as possible, but we need to make sure the visits can be done safely. We will let you know as soon as those plans are in place.

As always, we are working hard to keep everyone in our community safe and we will continue to practice the enhanced safety precautions that are known to prevent the spread of COVID-19, such as only essential personnel are allowed inside the facility and we screen them for signs and symptoms of illness prior to entering. Our residents are continually monitored and staff is using PPE as recommended by the CDC. Staff is frequently reminded and encouraged to practice social distancing and to use hand sanitizer and frequently wash their hands when they are in the facility and out in the community. We ask them not to report to work if they have symptoms of illness.

Please continue to check our website for weekly updates as well as notification of new cases. As always, we will notify you if we receive confirmation of a new positive case in our facility and we will reach out to you individually if your loved one is displaying symptoms of COVID-19 or tests positive for COVID-19.

If you have any questions or concerns please contact us directly at 803-427-7140.

Sincerely,

Tonya Bryant
